Connection Timeframe

Once we've accepted your application, we'll try to connect your service on the date you ask for, but this might not always be possible.

If there has been a previous working service at your property and we can reconnect it without having to visit your property, the local telephone exchange or anywhere in between, then we aim to connect the service within 2-3 working days of your request.

If this isn't possible, then we aim to connect your service within 5 to 15 working days, depending on your location.

We will bill you in advance for the minimum monthly charge and features. Your first bill will include charges for part of the month from when you signed up to your plan until the end of that billing period, as well as the minimum monthly charge in advance for the next billing period. Our billing period starts on the 1st of every month. You can keep track of your usage online by signing in to your Wired & Wireless Networks account on our website at www.wwnet.com.au.

If you cancel your Service, you will not be eligible to receive a refund on any fees that you've already paid to us. If you cancel your service after activation but before the Minimum Term has ended, you'll be charged an Early Termination Fee (ETF) up to the maximum amount of \$299. The ETF decreases each month you stay on the plan. If you require your Service to be moved to a different area, you'll need to restart your term to avoid any ETC.
